## **DETAILED ACTION**

This Office action is in response to the application filed October 15, 2004.

## Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 is provides for the use of the positive photosensitive resin, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 6 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd.* v. *Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

3. Claims 1-3 would be allowable over the prior art of record upon correction of the 35 U.S.C. 112 issue and the objection under 37 CFR 1.75(c).

None of the references of record disclose the claimed invention comprising the particular copolymer and its monomeric groups in a composition with a 1,2-qiunonediazide and a crosslinking agent having at least two epoxy groups and a surfactant.

Application/Control Number: 10/510,704

Art Unit: 1752

4. Claims 4-6 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend form another multiple dependent claim. See MPEP

Page 3

§ 608.01(n). Accordingly, the claims 4-6 have not been further treated on the merits.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. WATANABE et al (6,746,812 is cited of interest wherein the reference fails to disclose the claimed composition comprising an alkali-soluble resin, a 1,2-quinone diazide compouind, a crosslinking agent having at least two epoxy groups, wherein the alkali-soluble resin is a copolymer comprising a carboxyl group containing acrylic monomer, a hydroxyl group-containing acrylic monomer and an N-subsittuted maleimide as essential components.

SAKURAI et al (6,140,019) is cited to disclose a composition which has an acrylic acid/maleimide copolymer, and acrylic acid/hydroxyethyl methacrylate. The reference lacks the claimed crosslinker, the quinonediazide and the recited three monomers in the copolymer as claimed.

NISHIMURA et al (6,399,267) is cited to disclose an epoxy containing copolymer and 1,2-quinonediazide. The reference lacks the claimed terpolymer (three different monomers in the polymer) as recited.

JAREK et al has been cited by applicant wherein the reference discloses a copolymer comprising three monomeric groups which are preferred to be an methacrylic acid, a N-phenylmaleimide and a methacrylamide or N-methoxymethacrylate. The reference lacks the claimed crosslinking agent having at least two epoxy groups.

Art Unit: 1752

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Chu whose telephone number is (571) 272-1329. The examiner can normally be reached on Monday - Friday from 9:30 am to 6:00 pm.

The fax phone number for the USPTO is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571) 272-1700.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PMR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
